RAIPUR, INDIA, November 17, 2017 /EINPresswire.com/ -- Report Sellers has added a new market “[Critical Infrastructure protection - Global Market Outlook \(2016-2022\)](#)” to its offerings. The report is an in-depth market study providing accurate market insights including the latest trends, forecast, competitive insights, etc.

According to the report, The Global Critical Infrastructure Protection Market is valued at \$94.8 billion in 2015 and is expected to reach \$163.8 billion by 2022 growing at a CAGR of 8.1% from 2015 to 2022.

Some of the key drivers for the market growth include globally existing trend of investment in the smart grids, boost in IT spending and development in the operation of automation solutions. Moreover, factors such as integrated functioning of cloud and CIP rise in cyber-attacks & cyber-crimes and well-organized policy system & implementations are also fostering market growth. However, scarcity of technical personnel, a deep understanding of industrial control system and the paucity of interoperability between products are the major factors inhibiting the growth of critical infrastructure protection market.
