

Global Cyber Security Market is Expected to reach \$224.48 billion by 2022 growing at a CAGR of 14.84%

Global Cyber Security Market Analysis, Latest Trends, and Forecasts up to 2022

RAIPUR, INDIA, November 17, 2017 /EINPresswire.com/ -- Report Sellers has added a new market "[Cyber Security - Global Market Outlook \(2016-2022\)](#)" to its offerings. The report is an in-depth market study providing accurate market insights including the latest trends, forecast, competitive insights, etc.

According to the report, The Global Cyber Security market is estimated at \$85.21 billion in 2015 and is expected to reach \$224.48 billion by 2022 growing at a CAGR of 14.84% from 2015 to 2022.

Growing cybercrimes which may cause the loss of intellectual and financial assets and increase in adoption of cloud-based security solutions are some of the key factors propelling the market growth. Whereas use of pirated and freeware software for cyber security is hindering the market growth. Growing demand for Next Generation Security Solutions and increasing potential for Mobile and Web Applications and Platforms are the opportunity factors for the market players. However lack of skilled professionals is challenging the market growth.
