[Casino Gaming Market in the UK 2017](#)

A modern casino comprises hotels, restaurants, shopping malls, and various other attractions. It is an indoor amusement zone. The majority of the revenue is generated from gambling. Gambling is illegal in many parts of the globe, thus casinos are limited to certain regions. However, with its growing popularity and contribution to revenue in the form of taxes, several countries are easing regulations to support casinos.

The analysts forecast the revenue of the casino gaming market in the UK to grow at a CAGR of 4.13% over the period 2015-2019.

Covered in this Report

This report covers the present scenario and the growth prospects of the casino gaming market in the UK for the period 2015-2019. To calculate the market size, the report takes into account the revenue generated by games played in casinos. The report only includes the revenue generated through traditional land-based casinos and not online casinos.

In addition, the report discusses the major drivers that influence the growth of the market. It also outlines the challenges faced by the vendors and the market at large, as well as the key trends that are emerging in the market.
