The Washington Mesothelioma Victims Center says, "There are two separate types of compensation for a US Navy Veteran in Washington with mesothelioma and both require a very skilled attorney. The first is a VA disability benefit. The second and much more complicated mesothelioma compensation claim requires a very skilled and experienced fulltime mesothelioma attorney to design a financial claim that could involve potentially hundreds of thousands of dollars or more in compensation. This claim is focused on the makers of insulation or equipment on a navy ship that could have caused the

Veteran to be exposed to asbestos.

“For this second type of claim we encourage the Veteran’s family to assist their loved one-because frequently by the time the loved one is diagnosed with mesothelioma-the cancer is in an advanced stage and the person does not have a lot of energy. The number one question we would encourage the family to get answers to all revolve around how, where and when was your loved one exposed to asbestos. As an example-‘my dad worked at the Todd Shipyards in Seattle or the Puget Sound Naval Shipyard as a welder from 1965 until 1980.’ It is this type of information that becomes the basis for a mesothelioma financial compensation claim as we would like to discuss anytime at 800-714-0303. Additionally, it is this vital type of specific information the lawyers will need to get the best possible mesothelioma compensation settlements for your loved one-Veteran.”
