Lockdowel Engineer Daniel Savage demonstrates glue-less, snap-together assembly for furniture, cabinets and closets.

“This is a don’t-miss opportunity for any woodworking professional or enthusiast. The most innovative in wood manufacturing solutions in design, manufacturing and assembly, will all be all in southern California’s most extensive showroom,” Torben Helshoj, founder and CEO of Laguna Tools says.

Helshoj adds that this is the optimum time to take advantage of the Tax 179 deductions, with the ability to deduct up to \$500,000 in new CNC equipment through December 31.

“

We’ve helped a long list of furniture and cabinet makers significantly increase profits with our glue-less Lockdowel assembly method.”

*Lockdowel President Bryan Koelling*

Lockdowel will show how to save 60% or more in assembly costs and by eliminating the gluing process in manufacturing cabinets, furniture and customized closets. Design Engineer Daniel Savage will demonstrate Lockdowel’s patent-pending EClips glue-less, tool-less cabinet and furniture assembly system; award-winning, snap-on drawer slides; snap-in hinges

and no-hardware, no-show solutions for various modular closets.

“We’ve helped a long list of furniture and cabinet makers significantly increase profits with our glue-

less Lockdowel assembly method,” Lockdowel President Bryan Koelling says. “When an assembly solution can save hours and hours of installation time, with a stronger, better-made product, the industry should come see what it’s all about.”

Microvellum is the most prevalent design to manufacturing software available for professional and residential interior design - kitchens, millwork, cabinets and closets.

“We believe that technology should allow you to be more efficient and productive while inspiring your creativity to challenge the limits of possibility,” Lenny Scianna, Microvellum Director of Data Development says. “We do that by thinking outside of the box, not conforming to the usual and developing our software to exceed expectation, not meet it.”

At the one-day event participants will see hands-on demonstrations, are encouraged to ask questions, join discussions and enjoy great food! Laguna Tools will offer end-of-year special pricing on CNC equipment.

About Lockdowel

Lockdowel provides glue-less and screw-less fasteners, drawer slides and hinges for fast and easy installation of cabinets, furniture, closets and architectural millwork. Patent pending. Lockdowel 41920 Christy Street Fremont, CA 94538, (650) 477-7112 [www.lockdowel.com](http://www.lockdowel.com)
