## [3D CAD Market Analysis And Forecast](#)

### About CAD

CAD is an effective and efficient tool for modeling and designing products and components with ease and accuracy.

These solutions enable end-users to digitally prototype their products before production. They help

engineers, architects, and other design professionals draft industry-specific products to enhance the development of products. CAD solutions are widely adopted by several industries such as automotive, aerospace and defense, industrial machinery, electrical and electronics, and others. These solutions enable end-users to digitally prototype their products before production.

Technavio analysts forecast the global 3D CAD market to grow at a CAGR of 6.06% over the period 2014-2019.

### Covered in this report

The global 3D CAD market can be segmented into five end-user segments: aerospace and defense industry, automotive industry, electrical and electronics industry, industrial machinery industry, and others.

Technavio's report, Global 3D CAD Market 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the Americas, APAC, and EMEA; it also covers the market landscape and its growth prospects in the coming years.
