

# Digital Step Attenuators 2017 Global Market Expected to Grow at CAGR of 8.19% and Forecast to 2021

*Wiseguyreports.Com Publish New Market Research Report On -"Digital Step Attenuators 2017 Global Market Expected to Grow at CAGR of 8.19% and Forecast to 2021"*

PUNE, INDIA, November 21, 2017 /EINPresswire.com/ --

## [Digital Step Attenuators Market 2017](#)

An attenuator may be defined as an electronic device, which can reduce the power of a signal without distorting its waveform. Attenuators are passive devices, which are made from simple voltage divider networks. For measuring signals, attenuator pads or adapters are used for lowering the amplitude of a signal by a known amount to enable measurements or for protecting the measuring device from signal levels that might damage it. Attenuators are also used for matching impedance by lowering apparent standing-wave ratio (SWR). Digital step attenuators are used for controlling the amplitude of an RF or analog signal. They are used in receivers and transmitters to provide gain control. Digital step attenuators consist of a digital control circuitry that is integrated with an RF attenuator core and are used in applications such as 3G and 4G cellular base stations, point-to-point nodes, repeaters, and T&M equipment.

The analysts forecast the global digital step attenuators market to grow at a CAGR of 8.19% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global digital step attenuators market for 2017-2021. To calculate the market size, the report considers the sales of digital step attenuators.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

## [digital-step-attenuators-market-2017-2021](#)

The report, Global Digital Step Attenuators Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

### Key vendors

- Analog Devices
- NXP Semiconductors
- Peregrine Semiconductor
- Qorvo
- Skyworks Solution

### Other prominent vendors

- Honeywell International
- IDT
- MACOM
- Vaunix Technology

### Market driver

- Growth of CATV
- For a full, detailed list, view our report

### Market challenge

- Increasing RF complexity
- For a full, detailed list, view our report

### Market trend

- Growing popularity of EW
- For a full, detailed list, view our report

### Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

Any Query, Submit Here @ <https://www.wiseguyreports.com/enquiry/2517880-global-digital-step-attenuators-market-2017-2021>

## Table of Contents –Analysis of Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Market outline

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by application

- Global digital step attenuators market by application
- CATV
- Wireless infrastructure
- Defense and aerospace
- T&M
- Microwave radio

PART 07: Geographical segmentation

- Global digital step attenuators market by geography
- APAC
- Americas
- EMEA

PART 08: Decision framework

PART 09: Drivers and challenges

- Market drivers
- Market challenges

PART 10: Market trends

- Growing popularity of EW
- Emergence of next-generation wireless networks
- Growing popularity of IoT

PART 11: Vendor landscape

- Competitive scenario
- Other prominent vendors

## PART 12: Key vendor analysis

- Analog Devices
- NXP Semiconductors
- Peregrine Semiconductor
- Qorvo
- Skyworks Solutions
- .....Continued
