

# Technical Associates of Charlotte Joins Reliability Partners

*The Reliability Partners network gains from collaboration with the leading vibration analysis training and certification organization*

FORT MYERS, FLORIDA, UNITED STATES, November 21, 2017  
/EINPresswire.com/ --

[Reliabilityweb.com](http://Reliabilityweb.com)®, creator of Uptime® Elements™ – A Reliability Framework and Asset Management System™, is proud to announce [Technical Associates of Charlotte](#), a world-class training and certification organization, as a Reliability Partner.

James E. Berry, P.E., President, Technical Associates of Charlotte, expressed a warm welcome and stated, "I would like to personally invite members of the Reliabilityweb.com community to explore the numerous vibration services, seminars and products that Technical Associates of Charlotte have developed over the past 30+ years. This fascinating vibration technology is my continuing passion that I love to share with others! I am glad to have a new group of reliability leaders join us in this captivating journey!"

“

The team of instructors at Technical Associates of Charlotte is one of the most knowledgeable and experienced anywhere in the world.”

*David Berry*

“We are honored that Technical Associates of Charlotte has joined the Reliability Partner network, an eco-system of solution providers that empower the implementation of [Uptime Elements – A Reliability Framework and Asset Management System](#),” states Terrence O’Hanlon, CEO, Reliabilityweb.com. “There is no organization that has trained or certified more vibration analysis professionals than Technical Associates of Charlotte and we look forward to making their courses and professional certification available to a new community.”

“The team of instructors at Technical Associates of Charlotte is one of the most knowledgeable and experienced anywhere in the world,” stated David Berry, Vice President, Technical Associates of Charlotte. “That experience allows their teaching to go beyond the theory into application, which will benefit the student once they return to the field. Our instructors know that the real-world and the

classroom are two different things, and we diligently prepare our students for success.”

Reliability Partners enhance the business effectiveness and sustainability of reliability and asset management through:

- Peer-to-peer collaboration;
- A deep delivery network of solution providers;
- Professional development in all areas of condition monitoring and reliability;
- Expanding reliability awareness in non-traditional areas;
- Focused project management methodology;
- Benchmarking and sharing of best practices;
- Research activities.

About Technical Associates of Charlotte, founded in 1961:

Technical Associates of Charlotte is a full-service consulting engineering company that strives to provide the most informative and up-to-date diagnostic and training services, developed by knowledgeable engineers and instructors having great expertise and continuing real-world experience. Technical Associates of Charlotte has trained over 23,000 students in live instructor-led classes and certified approximately 15,000 vibration professionals worldwide.
