

Jeffrey Liu, CEO and President, INFILUX, Discusses Security Solutions “In The Boardroom” On SecuritySolutionsWatch.com

Mark Your Calendar: Meet with the IIoT World in Nürnberg, Germany

NEW YORK, NY, USA, November 22, 2017 /EINPresswire.com/ -- Jeffrey Liu, Ph.D., CEO and President, INFILUX, told us, “Infilux is a brand created by Infinova Corp in 2016. Infinova was founded in 1993 and has over 20 years of experience in the video surveillance industry. Currently, Infilux has 5 different IP cameras in the product list, including 3.6mm bullet and mini dome cameras, 2.8-12mm bullet and mini dome cameras, and a 2mp(1920X1080) 20X PTZ camera. All cameras except the PTZ camera are 4mp(2592X1520), IP66 Indoor/Outdoor, True IR Light Day/Night function. In addition, Infilux has 4 different NVR Units. There are 4, 8, 16, and 32 Channel options. All the NVR units come with remote client software on Window or Mac system and with mobile phone app on IOS or Android system.” Mr. Liu added, “The 36-month warranty is definitely over the industry standard. Most of our competitors provide 24-month warranty. We provide an extra 12-month warranty because we are confident about the reliability of our products. It also helps us to stand out in a saturated market, which offers a great deal of similar products. Being able to offer this type of guarantee helps ease

the consumers mind, when purchasing a high-consideration product. In addition to our industry-best, 36-month warranty, our price is really competitive comparing to other similar 4mp setups in the market. Also, as mentioned, Infilux provides life-time technical support and customer service.”
