

Global Flame Resistant Fabrics Market is Estimated to Grow to US\$5.787 billion by 2022

Market Research Report on Global Flame Resistant Fabrics Market

RAIPUR, INDIA, November 22, 2017
/EINPresswire.com/ --

Report Sellers has added a new market research report "[Flame Resistant Fabrics Market- Forecasts](#) from 2017 to 2022" to its offerings. The report is an in-depth market study providing accurate market insights including the latest trends, forecast, competitive insights, etc.

Flame Resistant Fabrics Market Research Report

According to the report, [Flame Resistant Fabrics Market](#) is estimated to grow to US\$5.787 billion by 2022, increasing from US\$4.379 billion in 2017, at a compound annual growth rate of 5.73% over the forecast period.

The mounting concern over workplace safety and government regulations are key factors driving the flame resistant fabrics market growth. Moreover, high accident risk prone industries like chemical and oil and gas are increasingly adopting flame resistant fabrics and thereby boosting the market growth. High-speed innovation along with continuous research and development activities is also expected to drive the market growth in years ahead.

Competitive Insights:

The flame resistant fabrics market is fragmented owing to the presence various small and large vendors. International players are increasingly focusing on acquiring local vendor in order to enhance their market share. The major players discussed in the report include Dupont, Teijin Ltd., PBI Performance Products Inc., Royal TenCate N.V., Milliken & Company, Gun Ei Chemical Industry, Huntsman Corporation, Lenzing AG, Solvay S.A., and Trevira GmbH. The favorable government and industry regulations coupled with decent market growth will attract new players within the market while enhancing the competitive rivalry.
