/EINPresswire.com/ --

Report Sellers has added a new market research report "[Night Vision Device Market- Forecasts](#) from 2017 to 2022" to its offerings. The report is an in-depth market study providing accurate market insights including the latest trends, forecast, competitive insights, etc.

Global Night Vision Device Market Research Report

According to the report, [Night Vision Device market](#) is expected to grow at a CAGR of 7.11% to reach a total market size of US\$7.081 billion by 2022, from US\$5.023 billion in 2017. The growing adoption of night vision devices for various applications due to its cost effectiveness is bolstering the demand for these devices. Rising number of terrorist attacks worldwide is further fueling the need for night vision devices by the military and defense sector. The other additional factor contributing to the market growth is a burgeoning need for tracking animal activities in wildlife sanctuaries.

**Competitive Insights:** Prominent key market players in Night Vision Device market include Thales Group, L3 Communications, BAE Systems, FLIR Systems, and ATN Corporation among others. Market players are adopting growth strategies like new product launches, M&A and partnerships to expand their product portfolio and gain a larger market share. In 2016, Harris Corporation launched F5032 lightweight night vision binocular that eliminates the need to change static lenses for personal or mission specific requirements and reduces eye fatigue.
