

# Scorum Presale Closed with 800K USD Raised, Whitelist Applications are Being Accepted Before the Official Crowdsale

*Scorum is a blockchain powered sports media platform. Interested parties can buy Scorum Coin (SCR) tokens at a crowdsale set for January 14, 2018 at 16:00 GMT.*

MINSK, BELARUS, November 22, 2017 /EINPresswire.com/ -- Scorum aims to jumpstart the sports media evolution and fairly reward its community with [cryptocurrency](#) for sharing their passion for sports. The three core services are the sports optimized blogging platform with special editorial tools and BI visualisation instruments, AI-enabled statistics center, and commission-free betting exchange.

[Timofey Mozgov](#), Alexander Hleb, Anna Sidorova, Alexandra Patskevich and other prominent athletes have already supported Scorum's aspiration to transform sports media, an industry long overdue for a much-needed change.

Vladislav Artemyev, CEO of Scorum, shares the insight behind the idea:

"While sports media websites profit from 8.5 million monthly visits, their audience doesn't get a cent. We decided to solve this problem by combining blockchain technology with a strong economic model. Our solution has three core principles: supporting cryptocurrency with real economy; rewarding all of the participants of the Scorum ecosystem; and distributing benefits in a clear and fair manner moderated by the user community."

To finance further development of the platform and distribute tokens to future users, Scorum has announced its Token Crowdsale. Scorum Coins (SCR) cryptocurrency totaling 20M is issued, 18.6M of which is allocated for the crowdsale. The presale has already come to a successful conclusion with 800K USD raised. Interested token purchasers can now apply for our whitelist via [whitelist@scorumcoins.com](mailto:whitelist@scorumcoins.com) to get the best deal. US citizens are welcome to participate.
