[Green Building Materials Market Analysis And Forecast](#)

About green building materials

Green building materials are manufactured using recycled waste materials from construction sites. Many construction companies have started implementing the use of green building materials in their constructions.

The global green building market witnessed a healthy growth of 12.81% in 2014. Rise in green building construction and government initiatives promoting sustainable environment is propelling the growth of the market. Increased demand for green building materials has been witnessed in the commercial and office buildings and residential buildings segments. The major factor contributing to this demand is rising awareness about the benefits of green buildings, which in turn is driving investment in green commercial building construction.

Europe is the leading region in this market, followed by North America and APAC. Although the concept of green building materials is still in its nascent stage in APAC as compared to Europe and North America, with governments initiating measures toward attracting investment in construction of energy-efficient buildings, the market is expected to grow at a rapid pace over the next five years.

The tax benefits offered by the governments of various countries to encourage construction of green buildings will foster demand for green building materials during the forecast period.

A blue contact card for Wise Guy Reports. The card features the company logo at the top, which includes the text "WISE GUY REPORTS" and a stylized profile of a head made of dots. Below the logo, the text "Norah Trent Partner Relations & Marketing Manager" is displayed. Contact information is provided for email, phone, and social media. The card is framed by a white border with a decorative pattern of squares and dots on the right side.

TechNavio's analysts forecast the global green building materials market to grow at a CAGR of 13.21% over the period 2014-2019.

Covered in this report

This report covers the present scenario and growth prospects of the global green building materials market for the period 2015-2019. The market size has been calculated based on the total revenue generated from consumption of green building materials. The forecast is based on government initiatives across different countries toward green building construction and rising demand from end-users.

The report also presents a detailed analysis of the geographical segmentation based on consumption of green building materials. In addition, the report also presents a detailed analysis of the key vendors in the market. The report also discusses the major drivers that influence the growth of the market. It also outlines the challenges faced by vendors and the market at large, as well as the key trends emerging in the market.

Key regions

- APAC
- Europe
- North America
- Others

Key vendors

- Du Pont
- Homasote
- LG Hausys
- Pittsburgh Corning
- Wienerberger

Other prominent vendors

- Alumasc group
- Bauder
- Johnson Controls
- Saint-Gobain

Market driver

- Government initiatives encouraging green building construction
- For a full, detailed list, view our report

Market challenge

- High initial cost
- For a full, detailed list, view our report

Market trend

- Increase in PPP in green building construction
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2019 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?

Table of Contents:

PART 01: Executive summary

Highlights

PART 02: Scope of the report

Market overview

Top-vendor offerings

PART 03: Market research methodology

Research methodology

Economic indicators

PART 04: Introduction

Key market highlights

PART 05: Market landscape

Market overview

Market size and forecast

Five forces analysis

PART 06: Market segmentation by application

Global green building materials market segmentation by application

PART 07: Geographical segmentation

Geographical segmentation by region

Green building materials market in North America

Green building materials market in Europe

Green building materials market in APAC

PART 08: Market drivers
PART 09: Impact of drivers
PART 10: Market challenges
PART 11: Impact of drivers and challenges
PART 12: Market trends
PART 13: Vendor landscape
Competitive landscape
Other prominent vendors
DuPont
PART 14: Key vendor analysis
Homasote
LG Hausys
Pittsburgh Corning
Wienerberger
