Global [Data Center Market](#)

Description

WiseGuyReports.Com adds" Global Data Center Market 2015-2019 "Research To Its Database.

A data center is a centralized facility for data computing, processing, and storage purposes. It includes high-performance servers, networking equipment, storage arrays, and supporting services such as powering and cooling solutions.

Data centers are established by enterprises dealing in cloud-based service offerings. There are also many enterprises that are involved in the construction of data center facilities with modern infrastructure and rent space for large enterprises as well as SMEs, termed as colocation and managed hosting data center facilities. With the evolution of cloud computing and increased use of big data analytics, there are a number of data centers being established to cater to the computing requirements of the enterprises to offer efficient and high availability services.

Covered in this report

The report covers the present scenario and the growth prospects of the global data center market for 2015-2019. The market can be segmented based on IT equipment, cooling solutions, power management systems, racks, general construction, security, and data center infrastructure management.

The Global Data Center Market 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the landscape of the global data center market and its growth prospects in the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

Amazon Web Service
Digital Realty
Equinix
Google
Microsoft

Other prominent vendors

Apple
AT&T
Century Link
Computer Sciences Corporation (CSC)
Facebook
IBM
Level 3 Communication
NTT Communications
Verizon

Market driver

Cloud fuels data center growth
