Global [Surgical Navigation Software Market](#)

## Description

WiseGuyReports.Com adds" Global Surgical Navigation Software Market 2017-2021 "Research To Its Database.

Surgical navigation, also referred to as computer-assisted image-guided surgery, is a procedure for locating a specific target site for surgery using computer software. Surgical navigation software allows surgeons to accurately track, analyze, and monitor surgical instruments relative to a patient's anatomy during surgical procedures to improve surgery outcomes. The software concentrates on procedural simplification and flexibility of workflow that meets specific surgeon needs. Surgical navigation software aid in continuously tracking the position of the surgical instrument in relation to the patient's anatomy, displaying the real-time situation on a computer screen. The imaging features of the software help to improve precision during surgery and provides real-time surgical data to reduce issues.

## Covered in this report

The report covers the present scenario and the growth prospects of the global surgical navigation software market for 2017-2021. To calculate the market size, the report presents a detailed picture of the market by way of study, synthesis, and summation of data from multiple

sources.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The Global Surgical Navigation Software Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Brainlab
- Medtronic
- Stryker

Other prominent vendors

- ClaroNav
- Karl Storz
- Scopis
- Surgical Theater
- XiON medical
- Zimmer Biomet

Market driver

- Increase in the number of minimally invasive surgeries.
- For a full, detailed list, view our report

Market challenge

- Market barriers for existing and new vendors.
- For a full, detailed list, view our report

Market trend

- Shift from frame-based stereotaxy to frameless stereotaxy navigation for neurosurgery.
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents -Major Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Market overview
- Market size and forecast

PART 06: Five forces analysis

- Five forces analysis

PART 07: Market segmentation by application

- Global surgical navigation software by application
- Global orthopedic surgical navigation systems market
- Global neurosurgical navigation software market
- Global ENT surgical navigation software market
- Global others (spine and dental) surgical navigation software market

PART 08: Geographical segmentation

- Global surgical navigation software market by geography
- Surgical navigation software market in Americas
- Surgical navigation software market in EMEA
- Surgical navigation software market in APAC

#### PART 09: Key leading countries

- US
- Germany
- Japan

#### PART 10: Decision framework

#### PART 11: Drivers and challenges

- Market drivers
- Impact of drivers on key customer segments
- Market challenges
- Impact of challenges on key customer segments

#### PART 12: Market trends

#### PART 13: Vendor landscape

- Competitive scenario
- Key vendor offerings
- Other prominent vendors

#### PART 14: Key vendor analysis

- Medtronic
- Stryker
- Brainlab
