

Cary Skin Center Proudly Welcomes Dr. Elias E. Ayli, Mohs Surgeon

Cary Skin Center in Cary, N.C., announced the addition of Dr. Elias E. Ayli . Dr. Ayli is a Mohs surgeon who is originally from northern New Jersey.

CARY, NORTH CAROLINA, USA, November 27, 2017 /EINPresswire.com/ -- Cary Skin Center announced today the addition of Dr. Elias Ayli, [Mohs](#) Surgeon, to the staff starting January 2, 2018.

Dr. Ayli is a fellowship-trained Mohs Surgery and Reconstructive Surgeon who was awarded an academic scholarship to attend Villanova University. Dr. Ayli received his medical degree from the Philadelphia College of Osteopathic Medicine, where he was inducted into the honorary Sigma Sigma Phi service fraternity, was awarded for obtaining the highest cumulative GPA in pathology, and graduated at the top of his class. After graduation from medical school, the National Institutes of Health awarded Dr. Ayli a post-doctoral research fellowship in cutaneous oncology at the prestigious University of Pennsylvania School of Medicine, to study the role of signaling molecules in keratinocyte growth, differentiation, and tumor development.

Mohs Surgeon

“

We're thrilled to be adding a skin cancer surgeon of Dr. Ayli 's caliber to our staff”
*Robert Clark, MD, PhD.,
President of Cary Skin Center*

Dr. Ayli presented his research at a number of scientific meetings including the Society for Investigative Dermatology, European Society for Dermatologic Research, and the International Society for Investigative Dermatology. In addition, he published his research in numerous scientific journals, including the Journal of Cutaneous Pathology, Experimental Dermatology, and Giornale Italiano di Dermatologia E Venereologia.

Following this fellowship, Dr. Ayli served his medical internship

and dermatology residency at the University of Cincinnati, where he received extensive training in complicated dermatologic cases, dermatologic surgery, and dermatopathology. After residency, Dr. Ayli completed his Mohs Surgery and Procedural Dermatology Fellowship in Macon, Georgia, under the tutelage of Dr. David E. Kent, a nationally renowned Mohs Surgery and Reconstructive Surgeon. During his fellowship, Dr. Ayli performed over 1600 complicated Mohs surgery and reconstructive surgical cases and received comprehensive training in cosmetic dermatology, including the use of lasers, fillers, chemical peels, liposuction, and botulinum toxin.

Dr. Ayli is certified by the American Board of Dermatology. He is a member of the American College

of Mohs Surgery, the American Society for Dermatologic Surgery, the American Academy of Dermatology. In addition, he has published extensively in the dermatology, dermatologic surgery, and dermatopathology literature and has co-authored a chapter in the authoritative textbook, Lever's Histopathology of the Skin. Dr. Ayli joined Cary Skin Center in 2017 and enjoys serving Cary and the Pinehurst Communities.

Dr. Elias Ayli specializes in Mohs micrographic surgery, a type of [skin cancer](#) treatment developed by Dr. Frederick Mohs in the 1930s. It's a technique that incorporates pathology and surgery to incrementally remove cancerous skin tissue in microscopic layers. These layers are examined until the margin of the tumor is definitively mapped and removed. The process is the most effective techniques for treating skin cancer, sparing the greatest amount of healthy tissue while completely removing cancerous cells. Dr. Ayli has performed thousands of Mohs surgery procedures and now brings that expertise to work for the benefit of Cary Skin Center's patients.

"We're thrilled to be adding a skin cancer surgeon of Dr. Ayli 's caliber to our staff," said Robert Clark, MD, PhD., President of Cary Skin Center. "We're always looking to bring in exceptionally skilled and talented people with excellent credentials who can help our practice, but it's a bonus when they are an experienced and talented Mohs surgeon already. We're glad to have a doctor with his expertise for our Cary and Pinehurst offices and glad to have him in North Carolina."

For more information on Dr. Elias Ayli or any of the other dermatologic surgeons at Cary Skin Center, interested parties can visit www.caryskincenter.com or call the clinic directly at 919-363-7546. Cary Skin Center is located at the corner NC Highway 55 and High House/Green Level West Road in Cary, NC.

Cary Skin Center is a [skin cancer treatment](#) center specializing in Mohs Micrographic Surgery since 1998, located in Cary, North Carolina. Mohs micrographic surgery continues to be the most advanced and effective treatment procedure available for skin cancer.

About Cary Skin Center:

In 1998, Dr. Clark established the Cary Skin Center, a state-of-the-art outpatient surgical center specializing in Mohs Micrographic Surgery for the removal of skin cancer. Dr. Flynn joined the Cary Skin Center in 2001 and together they have successfully treated many thousands of patients in the Triangle and surrounding areas.

Because Mohs surgery is a highly complex and sophisticated surgical method, it requires extensive training. Dr. Clark, Dr. Flynn, Dr. Ayli and Dr. Ingraffea completed 1-2 year certified intensive training programs, including complex surgical cases and advanced reconstruction to become Fellows of the American College of Mohs Surgery. In addition, they offer over 60 years of combined Mohs surgery experience.
