## [Data Center Fabric Market in US 2017](#)

Covering: This market research report presents a comprehensive segmentation of the data center fabric market in the US based on solutions (fabric Switch, fabric Routers, SAN fabric, and management software), and end-users (cloud service providers (CSPs), enterprises, and telecommunication service providers). The report provides a market share analysis of key vendors in the market such as Alcatel-Lucent, Brocade Communications, Cisco Systems, Dell, HP, and Juniper Networks.

Market outlook of the data center fabric market in the US

The market analyst predicts that the data center fabric market in US to grow at a CAGR of approximately 7% during the forecast period. The report highlights that data center fabric reduces the IT budget of organizations. Key vendors in the market are offering solutions by integrating both fabric and software-defined networking (SDN). Data center FABRIC is popular among cloud-based organizations as it improves flexibility, agility, and efficiency of IT-related operations.

Solutions segmentation and analysis of data center fabric market in the US

- Fabric Switch
- Fabric Routers

- SAN Fabric
- Management software

Increased deployment of multi-core processor-based servers and virtualized servers that aid in running multiple application on a single server, infrastructure convergence, and rise in mission-critical and high-traffic applications is increasing the need for high-bandwidth networking infrastructure, namely 10/40Gb Ethernet switch fabrics. The market for data center fabric switches in the US is likely to account for a CAGR of around 4% during the forecast period.

End-user segmentation and analysis of data center fabric market in the US

- Cloud service providers (CSPs)
- Enterprise
- Telecommunication service providers

Cloud service providers (CSPs) are the major adopters of fabric switches and routers. The demand for cloud-based services is growing among enterprises in the US, with CSPs involved in the construction of data centers across the country to support a strong customer base. The data center fabric market in the US by CSPs is likely to record a revenue of over \$1.5 billion by 2020.

Competitive landscape and key vendors

The data center fabric market in the US is highly fragmented, with the presence of medium and large vendors that include many global players. The vendors compete on the basis of product differentiation, portfolio, and pricing. The intense competition among the vendors has resulted in an increased number of M&A between small entities and major players.

The top vendors in the market are –

- Alcatel-Lucent
- Brocade Communications
- Cisco Systems
- Dell
- HP
- Juniper Networks.

Other prominent vendors in the market include Arista Networks, Avaya Networks, Extreme Networks, Huawei Technologies, Oracle, and Unisys.

Key questions answered in the report include

- What will the market size and the growth rate be in 2019?

- What are the key factors driving the data center fabric market in US?
- What are the key market trends impacting the growth of the data center fabric market in US?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the vendors in the data center fabric market in US?
- What are the key outcomes of the five forces analysis of the data center fabric market in US?

## Table of Contents –Analysis of Key Points

### PART 01: Executive summary

Highlights

### PART 02: Scope of the report

Market overview

Top-vendor offerings

### PART 03: Market research methodology

Research methodology

Economic indicators

### PART 04: Introduction

Key market highlights

### PART 05: Market landscape

Market overview

Market size and forecast

Five forces analysis

### PART 06: Market segmentation by products

Fabric switches

Market size and forecast

Fabric routers

Market size and forecast

SAN fabric switches

Market size and forecast

Network management software

Market size and forecast

PART 07: Market segmentation by end user

CSPs

Market size and forecast

Enterprises

Market size and forecast

Telecommunication service providers

Market size and forecast

PART 08: Market drivers

PART 09: Impact of drivers

PART 10: Market challenges

PART 11: Impact of drivers and challenges

PART 12: Market trends

PART 13: Vendor landscape

Alcatel-Lucent

Brocade

Cisco Systems

Dell

HP

Juniper Networks
