Green Data Center 2017 Global Market Expected to Grow at CAGR of 27.94% and Forecast to 2021

Wiseguyreports.Com Publish New Market Research Report On -"Green Data Center Market - Global Analysis, Size, Share, Trends, Growth and Forecast 2017 - 2021"

PUNE, INDIA, November 30, 2017 /EINPresswire.com/ --

[Green Data Center Market 2017](#)

A green data center is a facility designed to optimize the performance of every element present in it and lower the operational costs associated with computing. Various advanced technologies and strategies are implemented in a data center to improve its performance. Concepts such as natural cooling, usage of alternative energy technologies, and waste recycling are some of the methodologies implemented in green data centers. The need for reducing the computing costs of companies and increased concerns about the environmental impact of data centers have led to the adoption of green data center solutions worldwide.

The analysts forecast the global green data center market to grow at a CAGR of 27.94% over the period 2015-2019.

Covered in this Report
The report covers the present scenario and the growth prospects of the global green data center market for the period 2015-2019. To calculate the market size, the report considers the revenue generated from the sales and services of the following:
• Data center equipment
• Powering and cooling solutions
• Monitoring and management solutions

The report, Global Green Data Center Market 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects in the coming years. The report includes a discussion of the key vendors operating in this market.

Key Regions
• Americas
• APAC
• EMEA

Key Vendors
• Cisco Systems
• Dell
• EMC
• Hewlett-Packard
• IBM

Other Prominent Vendors
• APC
• Eaton
• Emerson Network Power
• Fujitsu
• Hitachi
• Huawei Technologies
• Juniper Networks
• NetApp
• Oracle

Market Driver
• Increased Focus on Lowering the Energy Consumption in Data Centers
• For a full, detailed list, view our report

Market Challenge
• High Implementation Cost
• For a full, detailed list, view our report

Market Trend
• Increased Use of Energy Efficient Cooling Technologies
• For a full, detailed list, view our report

Key Questions Answered in this Report
• What will the market size be in 2019 and what will the growth rate be?
• What are the key market trends?
• What is driving this market?
• What are the challenges to market growth?
• Who are the key vendors in this market space?
• What are the market opportunities and threats faced by the key vendors?
• What are the strengths and weaknesses of the key vendors?
