

Global Packaging Automation Market is Expected to Reach \$59.21 billion by 2023

Market Research Report on Global Packaging automation Market

RAIPUR, INDIA, December 1, 2017
/EINPresswire.com/ --

Report Sellers has added a new market research report "[Packaging Automation-Global Market Outlook \(2017-2023\)](https://www.reportsellers.com/market-research-report/Packaging-Automation---Global-Market-Outlook-2017-2023)" to its offerings.

According to Report, the [global packaging automation market](https://www.reportsellers.com/market-research-report/Packaging-Automation---Global-Market-Outlook-2017-2023) is expected to grow from \$30.98 billion in 2016 to reach \$59.21 billion by 2023 with a CAGR of 9.6%. Huge competition among companies in the markets, need for supply chain integration, rising globalization of production, need for lean & cost effective manufacturing and reduced labor costs are the major drivers propelling the market growth. Factors such as large capital investment and higher level of maintenance are hindering the market growth.

By end- user segment, the food and beverages sector holds the largest share in the market. The rising applications for automation in this industry are accelerated by the intensifying competition among contemporaries in the business. By Geography, the European packaging automation market witnessed incredible gains in the market due to the rapid adoption of new technologies by the people and the presence of various manufacturing units and packaging automation providers in this region. Asia Pacific is also expected to witness lucrative opportunities in the market due to booming automotive, healthcare, and food and beverages industries which exhibit high demand for advanced packaging solutions.

Some of the key players in the packaging automation market include Mitsubishi Electric Corp., Siemens AG, Kollmorgen, ABB Ltd., Rockwell Automation, Inc., DE-STA-CO, Swisslog Holding AG, ULMA Packaging, Denso, Automated Packaging Systems, Inc., Schneider Electric Se, TS Automation Tooling Systems, Massman Automation Designs, LLC, Beumer Group GmbH & Co.
