US [Green Data Center Market](#)

Description

WiseGuyReports.Com adds” Green Data Center Market in the US 2015-2019 “Research To Its Database.

A green data center is a storage system that stores, manages, and distributes data using various methods that enable maximum energy efficiency with minimal environmental impact. It helps in optimizing the performance of every element in a data center and lowers the cost of operations associated with a computing system. Various advanced technologies and strategies are implemented in a data center to improve its performance. Concepts such as free cooling, use of renewable energy sources, consolidation, and waste recycling are some of the methodologies implemented in green data centers.

Covered in this report

The report covers the present scenario and the growth prospects of the green data center market in the US market for 2015-2019. The market can be segmented based on efficient infrastructures adoption into IT equipment, power management, and cooling solutions.

The Green Data Center Market in the US 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects in the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Cisco Systems
- Dell
- Emerson Network Power
- HP
- IBM
- Rittal
- Schneider Electric

Other prominent vendors

- 3M
- Airdale
- Black Box Network Service
- Eaton
- EMC²
- Fujitsu
- General Cables
- Green Revolution Cooling
- Hitachi
- iTRACS
- Server Technology

Key drivers

- Increase in electricity consumption and cost
- For a full, detailed list, view our report

Key challenges

- High cost of building green data centers
- For a full, detailed list, view our report

Key trends

- Use of renewable energy sources
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2019 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Executive Summary

List of Abbreviations

Scope of the Report

03.1 Market Overview

03.2 Product and Service Offerings

Market Research Methodology

04.1 Market Research Process

04.2 Research Methodology

Introduction

Market Landscape

06.1 Market Overview

06.1.1 Energy usage in data centers

06.1.2 Data center construction market overview in US

06.1.3 Best practices in decreasing energy consumption

06.1.4 Best practices in building green data center

06.2 Market Size and Forecast

06.3 Five Forces Analysis

Market Segmentation by Solutions

07.1 IT Equipment

07.1.1 Market Size and Forecast

07.2 Power Management & Cooling

07.2.1 Market Size and Forecast

07.3 Monitoring and Management

07.3.1 Market Size and Forecast

Building Criteria

Buying Criteria

Market Growth Drivers

Drivers and their Impact

Market Challenges

Impact of Drivers and Challenges
