

3D Printing Market 2017 Global Share, Trend, Segmentation and Forecast to 2021

The analysts forecast the global 3D printing market in the electronics industry 2015-2019 to grow at a CAGR of 18.94 % over the period 2014-2019.

PUNE, INDIA, December 1, 2017 /EINPresswire.com/ --

Global <u>3D Printing Market</u>

Description

WiseGuyReports.Com adds" Global 3D Printing Market in Electronics Industry 2015-2019 "Research To Its Database.

3D printing, also known as AM, is the process of making a 3D model by laying down many successive layers of a 3D material. It helps in manufacturing customized products at a mass level without incurring extra costs and other environmental impacts. During the advent of this technology, these models were restricted to prototyping purposes, but in recent times 3D printing technology has made a paradigm shift toward conventional product manufacturing in industries extending from aerospace to consumer products.

This report covers the present scenario and the growth prospects of the global 3D printing market in the electronics industry for the period 2015-2019. To calculate the market size and vendor share, the report considers revenue generated from services and sales of printers and materials.

The Global 3D Printing Market in Electronics Industry 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the landscape of the global 3D printing market in the electronics industry and its growth prospects in the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- 3D Systems
- Arcam
- ExOne
- Stratasys

Other prominent vendors

- Autodesk
- EOS
- EnvisionTEC
- Graphene 3D Lab
- Materialise
- Optomec
- Voxeljet

Market driver

· Advances in technology and manufacturing processes

• For a full, detailed list, view our report

Market challenge

- High cost of printers and materials
- For a full, detailed list, view our report

Market trend

- Increased consolidation of the market
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2019 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents -Major Key Points

Executive Summary List of Abbreviations Scope of the Report 03.1 Market Overview

03.2 Product Offerings

Market Research Methodology 04.1 Market Research Process

04.2 Research Methodology

Introduction Market Landscape Market Overview

06.1.1 Electrical and electronic industry

06.2 Market Size and Forecast

06.3 Five Forces Analysis

Market Segmentation by Components 07.1 Global 3D Services Market

07.1.1 Market Size and Forecast

07.2 Global 3D Printers Market

07.2.1 Market Size and Forecast

07.2.2 Market Segmentation

07.3 Global 3D Printing Materials Market

07.3.1 Market Size and Forecast

07.3.2 Market Segmentation

Market Segmentation by Geography Buying Criteria Market Growth Drivers 10.1.1 Traditional Field Service

10.1.2 Software- defined Supply Chain and Field Service

Drivers and their Impact Market Challenges Impact of Drivers and Challenges Market Trends 14.1.1 The emerging market for printers that involves high capability at lower cost.

Trends and their ImpactCONTINUED
