

Building Energy Software 2017 Global Market Expected to Grow at CAGR 16.24 % and Forecast to 2019

WiseGuyReports.com adds "Global Building Energy Software Market 2015-2019" reports to its Database.

PUNE, INDIA, December 1, 2017
/EINPresswire.com/ -About <u>Building Energy Software</u>
Building Energy Management Systems
(BEMS) are deployed in buildings for
efficient energy performance. These
systems control and manage building
facilities such as lighting, electricity, fire
precautions, safety, security, and
heating, ventilation and airconditioning. They are installed in
buildings such as commercial

buildings, IT parks, hotels, restaurants, manufacturing plants, retail outlets, and residential buildings for effective facility management.

BEMS includes hardware, software, and services. Building energy software helps in the prediction of energy usage of buildings. The software uses tools for monitoring, controlling, and optimizing electrical loads. Also, it allows the user to monitor and reduce the energy consumption of electrical and electronic devices and conserve energy. It also helps in power management by tracking the real-time energy consumption of electronic devices and comparing it with historical data. End-users obtain a holistic view of their energy performance, which is compiled through a wide array of sensing and control devices, data feeds, and analytics software.

Technavio's analysts forecast the global building energy software market to grow at a CAGR of 16.24% over the period 2014-2019.

Covered in this Report

The report includes the present scenario and the growth prospects of the global building energy software market for the period 2015-2019. The market can be segmented into end-user analysis: Commercial Buildings, manufacturing, retail, hospital, hotels and residential.

Technavio's report, Global Building Energy Software Market 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the Americas, APAC, and EMEA; it also covers the landscape of the global building energy software market and its growth prospects in the coming years. The report includes a discussion of the key vendors operating in this market.

- Americas
- APAC
- EMEA

Key Vendors

- EnerNOC
- Envizi
- Schneider Electric
- Siemens

Other Prominent Vendors

- Abb
- BuildingIQ
- Cisco
- eSight
- Hitachi
- GridPoint
- Honeywell
- IBM
- Johnson Control
- Optimum Control
- Pacific Control
- Verisae
