

# Lockdowel Glue-less, Snap-together Wood Assembly Inspires New US Manufacturing Machines from CNC Factory

*CNC Factory Designs and Manufactures CNC's with the Latest Woodworking Technology Breakthroughs such as Lockdowel Glue-less Fastening*

SANTA ANA, CA, USA, December 4, 2017 /EINPresswire.com/ -- [Lockdowel](#), the new glue-less, screw-less wood fastening technology that has been taking the industry by storm has inspired the new Scorpion Lockdowel LDR machine manufactured by [CNC Factory](#) in Santa Ana, California. Lockdowel technology enables a fast, snap-together build, without glue or screws and saves an enormous amount of time and manpower.

The Lockdowel Scorpion LDR inserts glue-less Lockdowel fasteners and allows super fast assembly of furniture and cabinets.

“The Lockdowel, glue-less, snap-together assembly method for cabinets and furniture is a game changer in the industry,” Chris Corrales Owner of CNC Factory says. “This is just the kind of technology breakthrough CNC Factory can incorporate quickly and expertly, and indeed we have, with the Scorpion Lockdowel LDR machine,” Corrales says. The LDR machine is equipped with third generation robotics technology, precise laser measuring and is designed for one operator, even when the job requires large panels.

“

The Lockdowel glue-less snap-together assembly method for cabinets and furniture is a game changer in the industry. CNC Factory incorporates technology breakthroughs quickly and expertly!”

*Chris Corrales, Owner of  
CNC Factory*

CNC Factory designs, builds and manufactures CNC (Computer Numerically Controlled) machines in their Santa Ana facility. “With CNC Factory located in the United States, we integrate new technology into CNC systems quicker and more skillfully than any other CNC manufacturer in the world,” Corrales says.

Andy Patel, Owner of Designer Closets in Orlando, Florida recently purchased a Scorpion Lockdowel LDR Machine, a CNC router, an edgebander and a 3-D Lamination Thermalfoil Press all from CNC Factory to produce the Lazy Lee Spinning closets. Lazy Lee incorporates Lockdowel fasteners for very quick assembly and hidden fasteners, without using screws, glue or cams.

“Lockdowel will allow our products to be assembled very quickly, and then disassembled and reassembled should the customer need to move to another home. Thus the tagline – Closets for Life!”

Patel explains. Patel is pleased with the quality the CNC Factory machines deliver for the Lazy Lee Spinning Closets and other lines of storage solutions, but says he really chose the company as his supplier of equipment for the owners.

"We chose CNC Factory by qualifying the people behind the design, manufacturing and servicing of the equipment, as the after sales service and attitude of the people supporting the purchase is a lot more important than the original purchase," Patel says. "I know I'm working with people I like and get along with," Patel explains. "Should I have an issue, who I am working with and how issues get resolved is very important. Chris and his team deliver in-house tech support and treat me as a friend they know, and not just a problem they need to process."

Patel says he trusts CNC Factory team for the best service and purchased two of his four machines sight unseen. "That's saying a lot. I didn't even need to see the machines in person because I trust the company and the owner that much!" #### About CNC Factory

CNC Factory, Inc., located in Southern CA began 13 years ago as a one man business, with a clear goal of helping companies embrace CNC automation. The company's mission is to make CNC automation as common place as a table saw.

This vision is core to their legacy as CNC Factory designs and manufactures high quality precision CNC routers, machining centers, edgebanding and thermofoil 3D presses to meet urgent business needs of customers.

At CNC Factory, providing the fastest, most accurate and dependable CNC Machines and supporting products is only the beginning of meeting customers' needs. "We never leave them all by themselves," Founder Chris Corrales promises.

Power up your needs with CNC Factory and capture more opportunities within your market! CNC Factory 2001 South Grand Ave., Santa Ana, CA 92705 714-581-5999, CNCFactory.com
