About [Automotive Digital Instrument Cluster](#)

The automotive instrument cluster is a collection of gauges, dials, and lights, which are in front of the driver, right above the steering. In some vehicles, it is present in the center of the dashboard. The instrument cluster has a panel, which displays various information, such as speed, fuel level, engine revolutions per minute (RPM), also known as a tachometer. With advancement in technology, modern instrument clusters also displays various icons related to the car such as front lights, power steering warning, door ajar warning, seat belt warning, tailgate open warning, high beam indicator, turn signal indicator, gear shift position, engine malfunction warning, anti-lock braking system (ABS), electronic stability program (ESP), engine oil warning, parking brake warning, charging system warning, malfunction indicator, airbag indicator, low fuel level warning, cruise control indicator, low windshield washer fluid level warning, and others.

Technavio's analysts forecast the global automotive digital instrument cluster market to grow at a CAGR of 37.26% during the period 2017-2021.
