About [Popcorn Machine](#)

A popcorn machine or a popcorn maker is used for popping corn kernels.

Popcorn machines come in two categories: commercial models and residential models. There has been an observable shift in consumer patterns across the popcorn industry. People have begun to prefer RTE popcorn to microwaveable popcorn. This is because RTE popcorn can be purchased and consumed conveniently. Many new players like Chia Pop, Pop! Gourmet, and 479° are operating in the RTE popcorn market.

Technavio's analysts forecast the global popcorn machine market to grow at a CAGR of 5.19% during the period 2017-2021.
