Description

Wiseguyreports.Com Adds “Data Center Security -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2022” To Its Research Database

According to Statistics MRC, the Global Data Center Security market is expected to grow from \$7.38 billion in 2015 to reach \$17.84 billion by 2022 with a CAGR of 13.4%. Growing acceptance of virtualization and cloud computing, raising global cyber attacks, and increasing data traffic are the major factors fueling the market growth. In addition, technological advancements in data security is the key factor contributing the market growth. On the other hand, expensive security solutions, data privacy aspects, substitute software solutions are the constraints hindering the market growth.

By application, Banking, Financial Services, and Insurance (BFSI) segment is projected to be fastest growing segment during the forecast period. The growth is attributed to the presence of high amount of vulnerable data in this industry. By solution, Logical Security segment dominates the market with largest share. North America and Europe are anticipated to be the leading markets in terms of market size, during the forecast period. Asia Pacific is expected to witness high growth rate during the forecast period. Growing acceptance of virtualization and cloud computing in enterprises, raising IT spending are the factors propelling the Asia Pacific market growth.
