The network has been launched specifically to help SMBs & individual service providers to create an exclusive online identity for them in form of a business listing & business profile on their own city portal. Businesses can also create a dynamic website using an easy-to-use online builder without the need of any technical knowledge. As a part of their premium listing service, company further offers distribution and management of business listing in over 90 popular search engines and national directories, hence enabling businesses to easily manage their online identity across the web through one single account.

Businesses can easily manage and update their business profile and website using a common interface or through a mobile app. All registered businesses will get a hyperlocal as well as a national level online visibility with business listings on their own city portal, state portal and the main portal - www.usaonline.us, through one single account.

Rajkumar Jalan, Founder of USA Online LLC said, “We are very proud to announce the official launch of the USAonline.us Network, which is by far the largest network of its kind created for any country of the world, ever! We invite businesses from all corners of the country to register their business on this mega network and create a unique online identity for their business.”

The company claims they have over 15.8 Million businesses listed on its network sites. The company is charging a one-time fees of only \$29.50 for a business to claim its listing and manage its business profile online. The website packages are also extremely affordable with dynamic features and unique apps and is highly mobile & SEO friendly, the company claimed further.

The network has some new & interesting services for its users like Free Classified Ads, Local Events

& News, City Guide and Online Obituaries besides the main service i.e. local business search and directory listings in over 23,000 business categories.
