About [Packaged Burgers](#)

Packaged burgers are frozen or chilled, which are usually bought by customers and used as per their convenience as they have a shelf life in a range of 1-30 days when kept under refrigeration.

The global packaged frozen food market is the immediate parent market for the global packaged burgers market. The market will witness a huge growth during the forecast period as the demand for frozen pizzas, frozen burgers, and frozen ready-to-eat products is rising in developing economies of Asia, South America, and Eastern Europe. The market is moderately fragmented due to the presence of a significant number of local and global vendors.

Technavio's analysts forecast the global packaged burgers market to grow at a CAGR of 7.31% during the period 2017-2021.
