

NeoMetrix Technologies, Inc. to Exhibit 3D Printing & 3D Scanning Technologies at Open House Event in Orlando

NeoMetrix Technologies to be exhibit their 3D technologies such as 3D printing, 3D scanning & reverse engineering at their Open House event. Register for now!

SANFORD, FLORIDA, UNITED STATES, December 11, 2017 /EINPresswire.com/ -- [NeoMetrix Technologies](#), Inc. announced they will be exhibiting their 3D printing, 3D scanning and 3D software products at their own open house [event](#) in Orlando on December the 14th. These events offer consumers the ability to see the latest in 3D technologies, learn about their capabilities and speak to experts in the additive manufacturing industry – all for free!

This premiere event will provide consumers the ability to see some of the most cutting edge technologies on the market today. Recently, NeoMetrix signed distribution deals with both 3D Systems and Markforged – two of the biggest 3D Printer companies in the world – and will have their groundbreaking technologies on display. The list of technologies that will be exhibited includes:

- Creafom: Hand-held 3D Scanners, Optical CMM and software
- SpaceClaim: 3D Design & Mesh Editing Software
- Geomagic: Reverse Engineering, Inspection and Table-Top 3D Scanners
- 3D Printers: from Markforged & 3D Systems
- Engineering Services: 3D Scanning - Reverse Engineering - 3D Printing - Dimensional Inspection

3D Printing and 3D Scanning Event hosted by NeoMetrix

Join us for a day discovery! Learn about the exciting world of Professional 3D Printing and 3D Scanning! Representatives and Engineers will be on-hand to demonstrate equipment and answer your questions. Our revolutionary technologies can transform your company - let us show you how! This open house event is intended to expand our customer base and help spread the knowledge of these groundbreaking technologies that are transforming manufacturing and production across various industries.
