

# Optimus, Comodo empower regional Internet Service Providers with security intelligence.

*Emerging technology leader Optimus partners with security specialist Comodo Security Solutions, Inc. to launch Thunder DNS security intelligence.*

LAS VEGAS, NEVADA, USA, December 13, 2017 /EINPresswire.com/ -- Cyber theft is the fastest-growing crime in the U.S., and is expected to cost the global economy [\\$6 trillion annually](#) by 2021. As a result, significant technology advancements are emerging to protect subscribers from virtual threats lurking on the open Internet.

Unfortunately, regional service providers are limited in their ability to leverage many of these advancements due to:

- Prohibitive pricing models
- Resource limitations
- Integration challenges

Optimus and Comodo Security Solutions, Inc. have teamed up to solve these problems and make next-generation cyber-security available to this underserved market. "I've worked with growing service providers around the globe for the past 7 years. These companies integrate hard work, ingenuity and pragmatism to offer world class services in places neglected by corporate giants. We're excited to work with regional providers against Cyber threats," said Ryan Rowley, GM of Optimus Networks.
