

Biometric Access Control Systems 2017 Global Market Expected to Grow at CAGR of 26.04% and Forecast to 2021

Wiseguyreports.Com Publish New Report On -“Biometric Access Control Systems Market - Global Analysis, Size, Share, Trends, Growth and Forecast 2017 - 2021”

PUNE, INDIA, December 13, 2017 /EINPresswire.com/ --

[Biometric Access Control Systems Market 2017](#)

Biometrics access control systems are based on the behavioural and physiological characteristics of an individual that are difficult to replicate. Various biometric technologies such as voice recognition, palm geometry recognition, DNA identification, gait recognition, fingerprint matching, facial recognition, iris recognition, signature verification, and vein recognition are integrated into access control systems. Biometric access control systems ensure physical and information security.

Biometric access control systems are expected to gain traction in residential security to ensure secure access to homeowners and avoid unauthorized access to miscreants.

The analysts forecast the global biometrics access control systems market to grow at a CAGR of 26.04% over the period 2015-2019.

Covered in this report

This report covers the present scenario and growth prospects of the global biometrics access control systems market for 2015-2019. The report also presents the vendor landscape and a corresponding detailed analysis of the top vendors operating in the market.

To calculate the market size, the report considers the revenue generated from the sales of biometric solutions, including hardware, software, integrated solutions, and services used for access control. The report considers biometric access control systems used for on-premise and in networks. The revenue generated from after-sales services is not considered in the report.

Request a Sample Report @ <https://www.wiseguyreports.com/sample-request/211690-global-biometric-access-control-systems-market-2015-2019>

The report provides a detailed analysis of the following:

- Technology: Fingerprint identification, facial recognition, voice recognition, iris recognition, and hand geometry
- End-users: Government, Transportation, Healthcare, and BFSI sectors
- Geography: North America, Europe, APAC, Latin America, and MEA

The market is fragmented with the presence of many small and large vendors. A detailed product and feature comparison for the key leading vendors is provided in the report. In addition, the report

discusses the major drivers influencing market growth and the challenges faced by vendors and the market as a whole. It also examines key emerging trends and their influence on current and future market scenarios.

The report, Global Biometrics Access Control Systems Market 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts.

Key vendors

- 3M Cogent
- HID Global
- M2SYS Technology
- NEC
- Safran

Other prominent vendors

- Abacus Infotech
- Allegion
- Anviz Global
- Bayometric
- BioEnable
- BioLink Solutions
- Excellex Softtech
- EyeLock
- FaceKey
- Fujitsu
- Herta Security
- Iris ID
- Kaba
- Matrix Systems
- Suprema
- Tyco
- Zwipe

Market driver

- Contactless access control

Market challenge

- Security concerns

Market trend

- Growing number of partnerships

Key questions answered in this report

- What will the market size be in 2019 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Any Query, Submit Here @ <https://www.wiseguyreports.com/enquiry/211690-global-biometric-access-control-systems-market-2015-2019>

Table of Contents –Analysis of Key Points

PART 01: Executive summary
Highlights

PART 02: Scope of the report
Market overview

PART 03: Market research methodology
Research methodology
Economic indicators

PART 04: Introduction
Key market highlights

PART 05: Market description
Working of biometric access control system
Advantages and disadvantages of biometric access control system
Applications of biometric access control systems in different sectors

PART 06: Key market developments
Contactless access control
Mobile biometrics
Integration of biometrics in smart cards

PART 07: Market landscape
Market overview
Share of biometric access control systems in global biometric market
Market size and forecast
Five forces analysis

PART 08: Product lifecycle analysis

PART 09: Market segmentation by technology
Global biometric access control systems market by technology 2014-2019
Fingerprint recognition in global biometric access control systems market
Facial recognition in global biometric access control systems market
Voice recognition in global biometric access control systems market
Hand geometry recognition in global biometric access control systems market
Iris recognition in global biometric access control systems market

PART 10: Market segmentation by end-user
Global biometric access control systems market by end-user 2014-2019
Global biometric access control systems market by government sector
Global biometric access control systems market by BFSI sector
Global biometric access control systems market by transportation sector
Global biometric access control systems market by healthcare sector

PART 11: Geographical segmentation

Global biometric access control systems market by geographical segmentation 2014-2019
Global biometric access control systems market by geographical segmentation 2014-2019 (revenue)

PART 12: Market trends

Growing partnerships
Cloud-based biometrics
Increased usage of biometrics in different sectors
Multimodal biometrics

PART 13: Key market challenges

Security concerns
Privacy issues
High cost of ownership
Increased error rates

PART 14: Key takeaways

PART 15: Vendor landscape

Competitive scenario
Vendor matrix
Product offerings
Other prominent vendors

PART 16: Key vendor analysis

3M Cogent
HID Global
M2SYS Technology
NEC
Safran
.....Continued
