

A Holiday Message From Aviram Jenik - CEO and Co-Founder of Beyond Security

Beyond Security is a provider of automated security testing solutions

SAN JOSE, CA, UNITED STATES, December 13, 2017 /EINPresswire.com/ --

The holidays are here again. This is the time for reflection on what we've accomplished so far as well as looking ahead towards the future on what still needs to be done.

At [Beyond Security](#), we measure ourselves by how well we help our customers reduce their security risks and help them mitigate their vulnerabilities. This year, we helped tens of thousands of organizations strengthen their networks, products and applications. We'll work harder next year to help our customers find and fix their security holes to further reduce their risks.

Aviram Jenikk - CEO of Beyond Security

As the CEO and the Co-founder of Beyond Security, it has been my privilege to work with and alongside many wonderful individuals. Building a great company is hard and cannot be done without help from every single employee. Without their help, the company that I am so proud to be a part of, would not exist.

It has been a challenging year in terms of cyber security to say the least. From WannaCry to the massive Equifax breach, we were reminded each time how vulnerable we truly are against these unseen, nefarious hackers and cyber-criminal organizations. As more and more of our lives become computerized, new risks appear: automated cars can be remotely hijacked; health devices can be breached to risk human lives; with computers being more integrated into our lives, the risk of a security breach increases along with the need to mitigate that risk.

As 2017 draws to a close, I would like to take the opportunity to thank everyone for being a part of Beyond Security. I am extremely proud of our employees who work diligently so that our clients can protect themselves from the danger of security threats. I am also grateful to our customers who have given us their continued trust in our line of security products and services.

We have quite a few unveilings planned for 2018 which I'm quite excited about. Stay tuned as we continue to expand our scope and our product offerings in our continuous effort to meet the requirements of our customers. In the meantime, take a moment to check out our website, which has a brand-new look and some cool features.

Thank you again to all everyone who helped make Beyond Security what it is and Happy Holidays to

you all.

Sincerely,

[Aviram Jenik](#)
