

# ITsavvy Expands Big Data Cloud Backup and Recovery for Enterprise Solutions with New Partnership

*ITsavvy just announced a partnership with Datas IO to bring backup and recovery solutions to enterprise clients with big data initiatives.*

ADDISON, ILLINOIS, U.S., December 13, 2017 /EINPresswire.com/ -- ITsavvy just announced a partnership with Datas IO to bring backup and recovery solutions to enterprise clients with big data initiatives.

Datas IO is on the cutting-edge of solutions for modern, enterprise-level applications. The company offers a unique backup and recovery solution specifically designed for modern cloud applications built on non-relational databases like MongoDB and Cassandra, as well as Big Data filesystems like Hadoop and Cloudera. Large enterprises utilize these business-critical applications to run big data or predictive analytics platforms.

ITsavvy President and CEO Mike Theriault said, "Datas IO is a valuable addition to ITsavvy's state-of-the-industry cloud portfolio. We want to ensure that our clients have all of the tools they need to protect data, enable growth and compete unfettered."

Datas IO provides the industry's first cloud-scale, data-aware, data management platform enabling organizations to protect, mobilize, and monetize all application data across private cloud, hybrid cloud and public cloud environments.

Datas IO specifically addresses the needs of large enterprises to backup modern, business-critical cloud applications running either on-premises or in public clouds by delivering capabilities for advanced recovery, backup anywhere, recover anywhere, and enterprise-grade security.

Key benefits of Datas IO include:

- Ensures business critical application data is protected at the right RPO and RTO.
- Automates non-recovery use cases for test/dev, cloud on-ramping, and cloud instantiation.
- Protects against outages from human error, data loss, logical corruption, and ransomware.

ITsavvy President and CEO Mike Theriault

ITsavvy

ITsavvy's Vice President, Strategic Accounts Dave Turza said, "Clients rely on my team to identify state-of-the-art solutions to their most challenging issues. With the rise of big data, our clients need a cost-effective solution for backup and recovery that is secure and reliable. Datos IO can dramatically reduce secondary backup storage costs."

Datos IO experienced rapid growth in 2017 doubling their install base, with 50 percent of its clients on the Fortune 500 List spanning all major industries. Datos IO was recognized by Gartner's Hype Cycle of Storage Technologies in 2016 and 2017, was awarded 2016 Product of the Year by Storage Magazine, and was most recently recognized by Database Trends and Applications as a trend-setting product for 2018. The company is headquartered in San Jose, Calif.

With Datos IO, ITsavvy has furthered its commitment to delivering public, private and hybrid [cloud backup](#) and disaster recovery solutions to all client sectors.

ITsavvy is a leader in tailored, end-to-end IT product and service solutions. ITsavvy built its reputation as a value-added reseller with industry-leading product availability, design and implementation, client support and delivery speed through 46 distribution centers across the U.S. ITsavvy also has data center locations in Cedar Knolls, N.J. and Oak Brook, Ill. The company's user-friendly website provides concise, leading-edge IT decision-making resources, including an e-commerce site with real-time pricing and availability. ITsavvy is headquartered in Addison, Ill., with offices in Chicago's Loop; Hauppauge, N.Y.; New York, N.Y.; Naples, Fla.; Miami; Indianapolis; Warren, N.J.; Davenport, Iowa; Hayward, Calif.; and Beavercreek, Ohio.
