

Recipe Costing Software Hires Restaurant Franchisor, Christopher Hoffman, as Chief Operating Officer

Christopher Hoffman to join Recipe Costing Software as COO bringing over 30 years of restaurant, franchising and technology experience.

MIAMI, FL, UNITED STATES OF AMERICA, December 14, 2017 /EINPresswire.com/ -- [Recipe Costing Software](#) a product of Kitchen Porter Tech LLC, the fastest growing restaurant management, inventory, back office and costing software continues to scale by announcing Christopher Hoffman as Chief Operating Officer to President and CEO Robert Vasquez.

In this new position, Christopher will be responsible for designing and implementing business operations, establishing policies promoting company culture, vision, oversee daily operations of the company's sales and marketing efforts, managing operations and working with the CEO Robert Vasquez.

Christopher Hoffman

"Recipe Costing Software has experienced significant growth over the last year, and we are positioned to enter an accelerated, high growth phase. We are excited to have Christopher on our team, and he will be a wealth of knowledge for our current and future customers. He has built restaurants and franchises during his 30 years in the restaurant industry. He is a natural leader, educator and focused on elevating the Recipe Costing Software brand. His passion and enthusiasm have brought a new energy to our team," said Robert Vasquez.

“

He has built restaurants, online catering, and franchises during his 30 years in the restaurant industry.”
Robert Vasquez

"Recipe Costing Software is well positioned in the marketplace, and I'm excited to be part of their growth. What I love about Recipe Costing Software is that they built trust with their customers by providing a 30-day free trial to include training and support, proving to its customers that the

software does as advertised. Robert made sure that the priority was on customer satisfaction, building powerful, innovative, easy to use software, at affordable pricing for the single or multiunit

restaurant operator," said Christopher Hoffman.
