Global [Telecom Power Systems Market](#)

Description

WiseGuyReports.Com adds" Global Telecom Power Systems Market 2015-2019 "Research To Its Database.

Telecom operators require power systems to monitor and control operations and to provide uninterruptible services to subscribers. These power systems consist of a set of individual systems such as converters, distribution systems, controllers, and backup systems, which hold different technical specifications. The main applications of these systems can be found in wireless and fixed-line environments. They are used for other applications such as network equipment, xDSL terminal, mobile broadband, cellular, and transmission. Most telecom operators use DC power supply systems for cellular applications as they are reliable, safe, and easy to integrate with battery backup systems.

Covered in this report

The report covers the current scenario and the growth prospects of the global telecom power systems market for the period of 2015-2019. To calculate the market size, the report considers revenue generated from the sales of telecom power systems and their services. The report includes the segmentation of the market based on network: access network and core network.

The Global Telecom Power Systems Market 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. The report provides the landscape of the top five vendors. In addition, it discusses the major drivers that influence the growth of the global telecom power systems market. It also provides the challenges faced by vendors and the market at large, as well as the key trends emerging in the market.

Key regions

- Americas
- APAC
- EMEA

Key vendors

- Delta
- Eaton
- Eltek (Deltronics)
- Emerson Network Power
- GE

Other prominent vendors

- APC
- Bel Fuse
- Benning
- C&D Technologies
- Cummins Power
- Dyna Hitech Power Systems
- Infineon
- Mitsubishi Electric
- Myers Power Products
- Pace Power Systems
- Pioneer Magnetics
- SAFT
- Schneider Electric
- Shindengen
- VMC Systems
- ZTE

Key market driver

- Deployment of telecom network infrastructure in emerging regions
- For a full, detailed list, view our report

Key market challenge

- Declining profit margins of leading manufacturers
- For a full, detailed list, view our report

Key market trend

- Rise in adoption of hybrid power systems
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2019 and what will the growth rate be?
- What are the key market trends?

- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents -Major Key Points

PART 01: Executive summary

Highlights

PART 02: Scope of the report

Market overview

Top-vendor offerings

PART 03: Market research methodology

Research methodology

Economic indicators

PART 04: Introduction

Key market highlights

PART 05: Market landscape

Market overview

Market size and forecast

Five forces analysis

PART 06: Market segmentation by products and services & software

Global telecom power systems market by products and services and software

Global telecom power systems market by products

Global telecom power systems market by services & software

PART 07: Market segmentation by products

Segmentation of global telecom power systems market by product (DC and AC systems)

Global telecom power systems market by DC systems

Global telecom power systems market by AC systems

PART 08: Market segmentation by network

Global telecom power systems market by network segmentation

Global telecom power systems market by access network

Global telecom power systems market by core network

PART 09: Geographical segmentation

PART 10: Market drivers

PART 11: Impact of drivers

PART 12: Market challenges

PART 13: Impact of drivers and challenges

PART 14: Market trends

PART 15: Vendor landscape

Competitive scenario

Market share analysis 2014

Other prominent vendors
