Scope

- The financial services industry registered a 10% drop in merger and acquisition (M&A) deals announced in Q3 2017, with deal count declining from 469 in Q2 2017 to 421 in Q3 2017.
- There was a decline in deal count across the financial services industry, the insurance segment

registered 6% growth in Q3 2017. This was driven by increasing M&A activities in the brokerage and distribution networks.

- The growth potential in new business models such as peer-to-peer (P2P) lending and online-only banks are now attracting investment in the banking segment.

Key points

- Gain insights into emerging areas of investment in the financial services industry.
- Identify products and services that are likely to make an impact on the market.
- Gain information about key investors operating in the financial services industry.
- Understand the best practices followed by market participants in the form of case studies.
