

HIV Drug / Medicine Market to grow by 2023 due to Increasing Awareness Regarding HIV drugs in Underdeveloped Nations

"HIV Drug / Medicine Market: Global Demand Analysis & Opportunity Outlook 2023"

BROOKLYN, NEW YORK, UNITED STATES, December 22, 2017 /EINPresswire.com/ -- The [global HIV drug / medicine market](#) is segmented into drug type such as generic drugs and branded drugs. Among these segments, generic drugs segment is expected to witness considerable demand during the forecast period. Generic drugs are way cheaper than branded drugs and effective just as branded drugs. Further, low cost of generic drugs is a key factor which is expected to fuel the growth of this segment during the forecast period.

HIV Drug / Medicine Market

Global HIV drug / medicine market is expected to register a 5.9% CAGR over the forecast period. Moreover, the global HIV drug / medicine market was valued at USD 26.9 Billion in 2015 and is expected to reach at notable revenue of around USD 38.1 Billion by the end of 2023. The market is expected to expand on the back of number of people living with HIV across the globe and ongoing research & development activates to develop more effective drugs. Additionally, the demand for generic HIV drugs is expected to rise in future due to increasing number of people living with HIV in low income nations.

The nucleoside reverse transcriptase inhibitors segment by medication class is likely to grow at remarkable pace during the forecast period. Moreover, effective results of nucleoside reverse transcriptase inhibitors in prevention and controlling of HIV infection is likely to drive the growth of this segment during the forecast period.

Rising Population Suffering from HIV

According to world health organization, in 2016 around 36.7 Million people are living with HIV globally. The demand for HIV drugs is expected to rise in near future owing to large number of population living with HIV across the globe. Furthermore, advancements in medical science and huge spending on research and development activities on HIV drugs are expected to escalate the growth of global HIV drug/Medicine market in near future.
