PUNE, MAHARASHTRA, INDIA, December 21, 2017 /EINPresswire.com/ -- [Advanced Driver Assistance Systems \(ADAS\)](#) Industry

Description

According to Stratistics MRC, the Global Advanced Driver Assistance Systems (ADAS) Market is accounted for \$22.52 billion in 2015 and is expected to reach \$89.09 billion by 2022 growing at a CAGR of 21.7%. The stringent government norms related to safety is the primary factor driving the global Advanced Driver Assistance Systems (ADAS) market. Furthermore, preferences towards advanced technology & active safety features and increasing focus of consumer safety are the factors favouring the market growth. However, complexity in testing, pricing pressure and inflation are the factors restraining the market growth.

By 2014, passenger vehicle segment has the dominant share in global Advanced Driver Assistance Systems (ADAS) market and is expected to continue its dominance throughout forecast period. Europe has the largest regional market for Advanced Driver Assistance Systems (ADAS) due to its highly innovative automotive market. Asia Pacific is expected to witness highest growth on account of rapidly expanding automotive industry in emerging markets such as India and China. Rising awareness about active safety systems, increasing income & purchasing power and changing lifestyle are the additional factors favouring the market growth in APAC.
