REVE Antivirus Wins Asia Pacific ICT Alliance (APICTA) Merit Award

REVE Antivirus has been awarded Asia Pacific Alliance (APICTA) Merit Award this year.

BUTIK, SINGAPORE, SINGAPORE, December 22, 2017 /EINPresswire.com/ -- REVE Antivirus, the leading IT Security Provider, has been awarded the Asia Pacific ICT Alliance (APICTA) Merit Award this year. Outshining 16 others, REVE Antivirus won this meritorious award which is also recognised as 'Oscar of ICT'.

On this proud moment, the CEO of REVE Antivirus, Mr. Sanjit Chatterjee said "Our next-gen security products have been greatly appreciated by customers and we believe that this achievement will significantly help us enhance our presence in the cyber security sector."

The APICTA Awards were hosted in Bangladesh this year. Companies from 16 member economies including Vietnam, Thailand, Singapore, Malaysia, China, Australia, Japan, etc. participated in this international award program. As many as 56 International Experts tested various software for two days and considered stability, ability, innovation and market analysis as the key factors to announce the winner.

REVE Antivirus Team receiving the APICTA Award

REVE Antivirus has been in the news for its product line packed with advanced features like Turbo Scan for quick malware detection, PC Tune Up for smooth working of computer, Parental control with live notifications, etc.
