## Description

Wiseguyreports.Com Adds "Drive - By - Wire -Market Demand, Growth, Opportunities and Analysis Of Top Key Player Forecast To 2022" To Its Research Database

The Global Drive-By-Wire Market is accounted for \$17.2 billion in 2016 and is expected to reach \$50.7 billion by 2023 growing at a CAGR of 16.6 % during the forecast period. Simple integration with Advanced Driver Assistance Systems (ADAS) and Performance & Efficiency and low Maintenance are some key factors fueling the market. Moreover, electric & hybrid vehicles provide huge growth opportunity for the market. However, low adoption rate among vehicle users is hampering the market growth.

Drive-by-wire or x-by-wire is an automotive technology that substitutes conventional mechanical systems, for example, throttle control, braking, steering and gear shifting by electronic systems. Generally cables, hydraulic pressure, or other mechanical components are exchanged by sensors, electronic control unit, electric motors and actuators, etc.

By geography, Asia Pacific leads the market globally; the growth in the region is primarily being driven by Japan, China, Australia, South Korea, and India. Moreover, rise in the consumer purchasing power and their preference for better safety measures and the demand for greater fuel efficiency of the vehicle drives the market growth in this region.
