

Bioethanol Market 2017 Global Trend, Segmentation and Opportunities Forecast To 2022

Bioethanol -Market Demand, Growth, Opportunities and Analysis Of Top Key Player Forecast To 2022

PUNE, MAHARASHTRA, INDIA, December 22, 2017 /EINPresswire.com/ -- [Bioethanol](#) Industry

Description

Wiseguyreports.Com Adds “Bioethanol -Market Demand, Growth, Opportunities and Analysis Of Top Key Player Forecast To 2022” To Its Research Database

According to Statistics MRC, the global Bioethanol market is valued at \$48.7 billion in 2016 and is expected to grow at a CAGR of 6.4% to reach \$75.5 billion by 2023. The global market for bioethanol derives much of its growth from the increasing demand for renewable energy sources. Additionally, rising environmental concerns, depleting conventional resources of energy, volatile petroleum prices, constant efforts in R&D to produce ethanol from algae, abundant raw material availability, lower greenhouse gas emissions, technological advancements and favorable government support through investment programs, regulations and policies are the factors likely to reflect positively on the demand for bioethanol over the forthcoming years. However, shift towards electric vehicles, food vs fuel debate and competition with other oxygenates may hamper the market's growth to some extent in the near future.

Bioethanol has been identified as the mostly used biofuel worldwide since it significantly contributes to the reduction of crude oil consumption and environmental pollution. It can be produced using various feedstocks such as cellulose, starch and sugarcane through fermentation and chemical process. Bioethanol is an attractive alternative to conventional fuel sources, which can be used in various end use industries such as automotive, chemical, power generation and cosmetics.

In 2016, starch based feedstock segment dominated the global bioethanol market. Furthermore, cellulose based feedstock segment is estimated to grow at the highest CAGR, owing to its abundance and sustainability. The E10 Fuel blend segment is estimated to account for the largest share in the global bioethanol market throughout the forecast period. Whereas, E75 to E85 fuel blend segment will be the fastest growing market due to rise in number of flex-fuel vehicles.

Among verticals, transportation segment accounted for the highest market share in 2016, owing to the increasing consumption of biofuels. Growing demand for bioethanol in road transport applications is expected to compel manufacturers to invest more in R&D to develop low-cost renewable fuel resources. However, alcoholic beverages segment is expected to witness fastest growth on account of increasing demand from emerging countries.

North America has been leading the global market for bioethanol. The growing usage of these products in the transportation industry and growing government & environment regulations are the factors anticipated to fuel the demand for bioethanol in North America over next few years, ensuring

its dominance. On the other hand, Latin America and Asia Pacific regions are likely to witness strong growth due to the availability of arable land in India, China and Brazil.

Request for Sample Report @ <https://www.wiseguyreports.com/sample-request/2361608-bioethanol-global-market-outlook-2017-2023>

Petrobras, Dupont, Royal Dutch Shell PLC, United Petroleum Pty, Flint Hills Resources, Abengoa Bioenergy S.A., BP PLC, CropEnergies AG, Hankinson Renewable Energy, Archer Daniels Midland Company, Honeywell, Absolute Energy, LLC, Pacific Ethanol, Inc., New Generation Biofuels Holdings, Inc., Poet, LLC, Global Green SA, Vivergo Fuels, Beckons Industries Ltd., Green Plains and Valero Energy Corporation are some of the leading players operating in the global Bioethanol market.

Feedstock Types Covered:

- Cellulose
- Starch
- Sugarcane
- Other feedstock types

Fuel Blends Covered:

- E5
- E10
- E15 to E70
- E75 to E85
- Other Blends

Verticals Covered:

- Alcoholic Beverages
- Cosmetics
- Pharmaceuticals
- Power Generation
- Transportation
- Other Verticals

Leave a Query @ <https://www.wiseguyreports.com/enquiry/2361608-bioethanol-global-market-outlook-2017-2023>

Regions Covered:

- North America
 - o US
 - o Canada
 - o Mexico
- Europe
 - o Germany
 - o UK
 - o Italy
 - o France
 - o Spain
 - o Rest of Europe
- Asia Pacific
 - o Japan
 - o China
 - o India

- o Australia
- o New Zealand
- o South Korea
- o Rest of Asia Pacific
- South America
 - o Argentina
 - o Brazil
 - o Chile
 - o Rest of South America
- Middle East & Africa
 - o Saudi Arabia
 - o UAE
 - o Qatar
 - o South Africa
 - o Rest of Middle East & Africa

What our report offers:

- Market share assessments for the regional and country level segments
- Market share analysis of the top industry players
- Strategic recommendations for the new entrants
- Market forecasts for a minimum of 7 years of all the mentioned segments, sub segments and the regional markets
- Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)
- Strategic recommendations in key business segments based on the market estimations
- Competitive landscaping mapping the key common trends
- Company profiling with detailed strategies, financials, and recent developments
- Supply chain trends mapping the latest technological advancements
