

# Mobile Ticketing 2017 Global Market Expected to Grow at CAGR 20.09 % and Forecast to 2020

WiseGuyReports.com adds "Global Mobile Ticketing Market 2016-2020" reports to its Database.

PUNE, INDIA, December 28, 2017  
/EINPresswire.com/ --

About the [Mobile Ticketing Market](#)

Mobile ticketing is the process in which customers purchase and obtain tickets using their smartphones or other mobile devices. There are several applications for mobile ticketing, including event ticketing, airline ticketing, transit ticketing, and theatre ticketing.

Mobile ticketing is an initiative to enhance the role of mobile phones in ticketing services. The use of mobile phones will enable consumers to buy tickets and to carry tickets within the phone's secure universal integrated circuit card. This will work as an alternative to the traditional electronic card-based tickets and will provide additional functionality and convenience to end-users. Mobile ticketing will also provide more opportunities for service providers. For instance, ticketing agencies will be able to access new channels via the mobile handset to bring value-added services such as traveler guides to the market.

Technavio's analysts forecast the global mobile ticketing market to grow at a CAGR of 20.09% during the period 2016-2020.

Covered in this report

The report covers the present scenario and the growth prospects of the global mobile ticketing market for the period 2016-2020. To calculate the market size, the report considers the revenues generated from the sale of mobile ticketing solutions.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Technavio's report, Global Mobile Ticketing Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Bytemark
- Corethree
