

JobApplicationCenter's 2017 Accomplishments

Everything that JAC Achieved this Past Year.

BOSTON, MASSACHUSETTS, UNITED STATES, December 28, 2017

/EINPresswire.com/ -- Now that the year of 2017 is coming to an end, it's time for JobApplicationCenter.com to celebrate its accomplishments. These mostly pertain to matters of increasing domain authority due to citations and sourcing, granted by JAC's status as an expert site in its field, and one of the employment databases in the niche.

One of the website's proudest achievement is having researched the perception of employment completed by a visual aid on [job applications for millennials](#).

This was quickly picked up by high-authority sources such as FoxBusiness.com and CheatSheet.com.

Their articles have received over 1,000 shares across various social media platforms. And more than 720 individual websites have cited Job Application center as a reliable source of information in 2017.

This provided the website with quality exposure, which in its turn brought in a new wave of users well within its target demographic. Job Application Center thus enjoyed success among more visitors than ever which improved conversion and retention.

The users have also found an irreplaceable source of useful information and much-needed help navigating the job industry, so 2017 was a win on all sides.

JAC was more accessed than ever over the course of this past year.

The site's top three most visited pages this year were:

- <https://jobapplicationcenter.com/perceptions-employment-opportunities/> - dealing with the aforementioned topic of millennial job openings and opportunities;
- <http://jobapplicationcenter.com/all-job-applications/> - a compendium of positions from all fields, complete with their requirements and other necessary information;
- <https://jobapplicationcenter.com/subway-application/> - a comprehensive guide on how and when to apply for a position at world famous fast food chain Subway.

Job Application Center has managed to stay completely free in 2017 as well. In fact, users don't even need to sign up to create an account on the website to browse the information on it. This has been

made possible by JAC's 'word of mouth' approach, which encourages page visitors to share it across their social media or even recommend it to their friends verbally.

The website also took pride in offering \$1,000 [student scholarships](#), an amazing educational opportunity for young people in the United States of America. By doing this, Job Application Center encourages the youth to get the necessary levels of education for fulfilling a successful career path.

JAC has been a worthy ally for the future of young people in 2017, and it will continue to be all the way through 2018. By providing its audience with exciting and reliable opportunities, this database will continue to grow even more than before.

For information and guidance on how, when and where to apply for jobs at America's top employers, such as Forever 21, McDonald's, Taco Bell, Old Navy, Walmart, Home Depot, Bed Bath and Beyond, and many, many more the site will grow stronger in 2018.

About www.JobApplicationCenter.com

Job Application Center is not a listing website where one can apply for certain positions. Instead, it is a database of almost all major U.S. companies, complete with valuable information on their internal policies, as well as the employment opportunities they offer.

It's useful for both people looking for entry-level jobs, as well as those seeking out management positions. More often than not, JAC also provides its users with downloadable application forms, and if that is not possible, there will always be a link to another website which accommodates this request.
