About Digital Badges
Digital badges are increasingly being used in applications in the CBE sector. They are basically used to demonstrate the skills of students. The concept of digital badges has gained traction in the education sector and is gaining popularity among teachers. Schools across the world are increasingly using digital badges in the form of micro-credentials for the professional development of teachers. The global digital badges market in the higher education sector is expected to witness a steady growth during the forecast period. Based on the end-user segment the digital badges market can be segmented into higher education and K12. During 2017, the higher education segment accounted for the major share of the digital badges market in education sector. Factors such as the stringent demands from employers and the increasing number of students enrolling for higher education, will contribute to the growth of the digital badges market in higher education segment in the coming years.

Technavio's analysts forecast the global digital badges market in education sector to grow at a CAGR of 31.30% during the period 2018-2022.
