## About [Geared Motors and Drives](#)

The geared motors and drives market appears to be highly fragmented due to the presence of several international and regional players who focus extensively on R&D and technological advancements. The competition among the players has increased due to low product differentiation. To attain a competitive advantage over the other players, the manufacturers in the geared drives and geared motors market are focusing on introducing new and innovative variants and their product portfolio varies based on price, quality, innovation, and regulatory compliance. Based on end-user the market can be segmented into food and beverage, metals and mining, automotive, wind power, oil and gas, and pulp and paper.

Technavio's analysts forecast the global geared motors and drives market to grow at a CAGR of 5.22% during the period 2018-2022.
