“

Our 100 SafeCare Hospitals listing is truly disruptive to the healthcare status quo”

*Yisrael M Safeek, Chairman & CEO, The SafeCare Group*

- 100 SafeCare Hospitals did not rely solely on hospital process measures to assess hospital performance - we were proven right when some of these were debunked.
- Likewise, 100 SafeCare Hospitals did not rely on hospital reputation to assess hospital performance - we felt this was subjective and unscientific.
- Similarly, 100 SafeCare Hospitals did not rely solely on hospital complications to assess hospital performance - we felt this was incomplete and conjecture.

• Rather, 100 SafeCare Hospitals utilized a holistic, evidencebased framework consisting of quality, safety, and efficiency metrics.”

“As we celebrate these past five years, we realize 100 SafeCare Hospitals would not have been possible without the confidence and support of our subscribing hospitals. We’ve also taken the time to look ahead to the future to ways we can contribute even more to making American healthcare better.”

Over the last five years, 100 SafeCare Hospitals® has celebrated impressive accomplishments:

- November 2013 - Released first listing
- December 2014 - Added ranking to our listings
- December 2015 – Offered 38 page QAPI Report to our services
