

Domain Burn Provides Auction Platform for the Buying and Selling of Domain Names

BOSTON, MA, USA, January 2, 2018 /EINPresswire.com/ -- Domain Burn (www.domainburn.com) is the newest online auction platform for the buying and selling of domain names. Domain Burn features low listing fees, an easy-to-use bidding and buying process, and assists with the transaction and domain name transfer process.

Domain Burn CEO Kriss Pettersen believes the website is perfectly aligned with the company's mission to provide an easy-to-use platform for the buying and selling of domain names. "The secondary market for selling domain names is thriving. With over 130 million registered domain names in the .com extension alone, there is a feeling that all the 'good' names are already taken, many by domain name investors who registered the name only to re-sell at a higher value," stated Pettersen. "Domain Burn is not just another domain name sales website," he continued. "We have a platform that is easy to navigate with great graphics, with the aim to do one thing and one thing very well – to provide a simple auction website at a low cost for the buying and selling of domain names."

Auctions are a great way for domain name investors to sell their domain names in the global marketplace. Whether you are a domain name holder seeking to sell your domain names, or you are in the market to buy a new domain, or perhaps you're looking to get into the business of selling domain names for profit, domain auctions are a great tool for matching domain name buyers and sellers.

To promote its online auction website, Domain Burn is offering half price listing fees through January, 2018, with other offers planned throughout the year. And with only a 5% commission (plus any associated fees) on all successful auctions, Domain Burn has the lowest commission rate of any dedicated online domain name auction website. It is also free to join Domain Burn to bid on domain name listings.

For more information on the Domain Burn domain name auction website, contact Domain Burn at info@domainburn.com or visit their website at www.domainburn.com.
