

TraceGains Named to Food Logistics' 2017 FL100+ Top Software and Technology Providers List

WESTMINSTER, CO, UNITED STATES, January 2, 2018 /EINPresswire.com/ -- Food Logistics, the only publication exclusively dedicated to covering the movement of product through the global food supply chain, has named [TraceGains](#) to its 2017 FL100+ Top Software and Technology Providers list.

The annual FL100+ Top Software and Technology Providers list serves as a resource guide of software and technology providers whose products and services are critical for companies in the global food and beverage supply chain.

“New developments and innovations in the software and technology sector are making sizeable impacts on the global food supply chain,” notes Lara L. Sowinski, editorial director for Food Logistics and its sister publication, Supply & Demand Chain Executive. “The result is a greater visibility, improved regulatory compliance, enhanced shelf life for perishables, and the emergence of a more proactive and nimble food supply chain that benefits both the food industry and its logistics partners, as well as the end consumer.”

Companies on this year's 2017 FL100+ Top Software and Technology Providers list will be profiled in the November/December 2017 issue of Food Logistics, as well as online at www.foodlogistics.com.
