

Dr. C. Norman Shealy of Shealy Wellness to be Featured on CUTV News Radio

FAIRGROVE, MISSOURI, UNITED STATES, January 5, 2018 /EINPresswire.com/ -- CUTV News Radio today announced it will feature renowned physician Dr. C. Norman Shealy in a four-part interview series hosted by Doug Llewelyn on January 9th and January 23rd at 2pm EST and with Jim Masters on January 16th and January 30th at 2pm EST.

Dr. C. Norman Shealy is the world's leading expert in natural chronic pain relief solutions and the first physician to specialize in the resolution of chronic pain. A pioneer in developing safe and effective treatments for chronic pain, Dr. Shealy is considered the father of modern pain medicine. He is the inventor of both spinal cord stimulation and the TENS unit, which revolutionized the treatment of pain and remain the standard for managing chronic pain worldwide. In 1974, Dr. Shealy established Shealy Wellness to complement his frequent lectures on alternative pain treatments.

"There's only one purpose in life: to help other people," says Dr. Shealy. "But it all begins at home. If you don't help yourself, take care of yourself, then you won't have anything left over to give other people."

To that end, Dr. Shealy has expanded his practice beyond the scope of physical pain to address psychological pain like anxiety, depression and addiction through electromagnetic field therapy.

"Curing an addict is in my experience harder than any other psychological problem," says Dr. Shealy. "I consider our newest discovery of the use of specific pulse electromagnetic field therapy to be potentially the most important discovery of my life."

According to Dr. Shealy, using a chakra sweep pulse electromagnetic field device puts the brain immediately into gamma frequency. Gamma is the optimal creativity of the brain, that feeling when you're in the zone.

"The interesting thing is that gamma frequency is missing from every single person with any disease, but especially people who are depressed or anxious or drug addicts," says Dr. Shealy. "We have done

this on enough people to prove unequivocally that no matter how depressed you are, it almost instantly produces gamma activity and make people feel good.”

Now 85, Dr. Shealy remains among the most forward-thinking physicians. Recently, Dr. Shealy passed the torch to Dr. Sergei Sorin to serve as medical director for Shealy Wellness and continue its legacy.

“Growing up I wanted a brother and never had one,” says Dr. Shealy. “Dr. Sorin is the closest to a soul brother I've ever met in this life. I know I can trust him. I looked for 40 years to find the right physician. I'm training him in the philosophy that I've developed over the last 45 years.”
