

WOLFCOM® ends partnership with HD Protech VisioLogix and launches its own Evidence Management Software

PASADENA, CALIFORNIA, UNITED STATES, January 9, 2018 /EINPresswire.com/ -- Body camera manufacturer, WOLFCOM® severs ties with HD Protech VisioLogix. The companies partnered in mid-2015 to provide evidence management software for law enforcement agencies using body worn cameras manufactured by WOLFCOM®.

Together, the two companies excelled and grew its customer base in the United States and globally. Providing a complete video management ecosystem that improved processes and at the same time lowered maintenance costs for law enforcement agencies.

"At the time of the merger, the evidence management solution and expertise that HD Protech VisioLogix brought to the partnership was timely. However, with advancements in technology, the requirements of law enforcement agencies have evolved and to be relevant, we too have to adapt," said Peter Austin Onruang, WOLFCOM's Founder and President.

Case summary log for WEMS 2.0.									

"WOLFCOM® has gone from a company that only manufactured body worn cameras to one that is also in the business of developing software."

In February, the company will be rolling out the new WOLFCOM® Evidence Management Software (WEMS) 2.0, which will be web-based and scalable for the future. The WEMS 2.0 is designed and based on evolving web and internet technologies that will eventually make all older versions slow and obsolete. WEMS 2.0 will have optional features such as artificial intelligence, automatic redaction, audio transcribing, analytics, and facial, weapons and license plate recognition.

To ensure that no department or agency is left behind, WOLFCOM® is currently offering for a limited time to all customers who have the old C3 Sentinel EMS or WEMS 1.0, free updates to the WEMS 2.0 until March 1, 2018.

٢٢

WOLFCOM® has gone from a company that only manufactured body worn cameras to one that is also in the business of developing software."

Peter Austin Onruang

WOLFCOM® has been at the forefront of introducing industry firsts features and cutting-edge technologies like patent pending Critical Re-Connect and Anti-Video Deactivation technology. WOLFCOM® body worn cameras, accessories and evidence management solution is used by over 1000 law enforcement agencies in the US and in 17 countries worldwide.
